PRODUCT DESCRIPTION

KLEEN HANDLER Heavy Weight String Knit Work Gloves are made of comfortable cotton and polyester materials. Cotton helps absorb moisture or perspiration, and the polyester provides a slightly silky feel to keep hands comfortable. These gloves feature an overedged knit wrist cuff for improved comfort and a snug fit to keep debris out and improve longevity during laundering. The reusable knit gloves are the perfect solution when you need your hands to be protected, but don't want them to overheat. The latest knitting technology has been utilized to produce smooth and rounded fingertips, improving fingertip sensitivity. These heavy-duty string knit gloves are ideal for handling food in cold storage, general maintenance, packaging, inspection, material handling, assembly, wood shop work, warehouse, shipping & receiving, and a wide variety of other environments. These simple knit gloves provide warmth, yet allow dexterity and breathability.
