FEATURES & DESCRIPTION

SAFE HANDLER Performance Leather Gloves, Black/Red/Gray, 11.75" x 5.75", 12 Pairs

HEAT RESISTANCE: Kevlar thread is often found in applications that require high-heat resistance, extra reinforcement as well as strength & durability.

SOFT, DURABLE MATERIAL: Full split leather is soft, flexible and durable all at the same time. The full split leather material is effective when it comes to general protection in work environments or construction zones. A cool, cotton lined backing is added to allow more airflow and improved breathability throughout your work glove.

EXTRA SAFE CUFF: We constructed our performance leather gloves with a rubber gauntlet safety cuff that keeps a wide opening for more airflow and ventilation. This also makes it easier to slip on and off in fast paced work environments. The thick fabric on the fingers and palm have an excellent grip, allowing you and your employees to easily lift and grasp different tools or objects.

VARIOUS ENVIRONMENTS: Ideal for jobs that require heat resistance and high performance. May be used in industrial, carpentry, construction, and manufacturing environments.

INNER PACK & OUTER CARTON
