DESCRIPTION

Safety Headgear Face Shield with Adjustable Ratchet Suspension is designed with a clear polycarbonate face shield that meets ANSI Z87.1 standard without obstructing your field of vision. The headgear is fully adjustable for the perfect fit with a 5-position crown strap and ratchet adjustment knob on the back. Pre-installed with a replaceable sweatband for ultimate comfort and moisture absorption. The flexible polycarbonate shield comes with a removable protective sheet to protect from scratching during shipping that should be removed before use. The high-strength thermoplastic crown is built to last and allows for replacement or exchange of the face shield within seconds.

ASSEMBLY

Head Gear Cap:

At the sides of the head gear cap is a set of cut-outs that will hold the ratcheting suspension with the assembly pieces.

First Assembly Pieces:

The bolt can be inserted into locking washer and inserted from the inside going out and the temple placement.

Second Assembly Pieces:

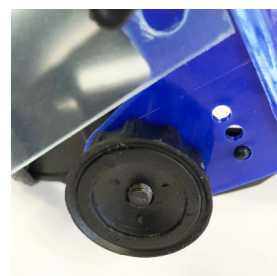

Once the bolt assembly is in place the temple adjustment piece can be placed on outside of suspension.

Cap & Suspension Assembly:

Cap cut-outs will match with temple adjustment piece. Continue to hold all pieces together until adding adjustment screw.

Final Assembly:

While holding pieces in place, twist on the adjustment screw to complete assembly. To adjust angle of suspension, loosen screw and make adjustment.
