*Cordially invites practicing physicians only to*

## **Review of Environmental Allergy Short and Long-Term Treatment Options**

### **Learning Objectives**

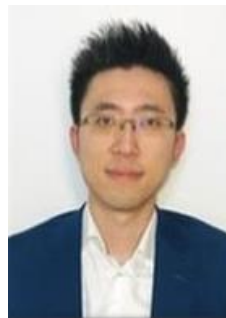

1. Explore common symptoms associated with allergic rhinitis, epidemiology, quality of life evidence and differential diagnosis of rhinitis
2. Become familiar with perennial and seasonal allergens common in the Lower Mainland
3. Refine an approach to short-term management of rhinitis, including with consideration of costs of typical medications
4. Review indications, options and evidence surrounding use of subcutaneous and sublingual immunotherapy
