Practising medical practitioners are invited to

Quick Interventions Made in Less than 5 Minutes with CGM: Continuous Glucose Monitoring can improve the care of your patients!

Speaker: **Dr. Peter Ling** MD FRCPc
Internist Richmond Hospital
Special interest in Diabetes and Thyroid disease
Clinical instructor University of BC
Advisory Board Member of the MMES

Learning Objectives:

- Discuss the value of continuous glucose monitoring (CGM) data to manage patients with Type 2 diabetes.
- Interpret time in range (TIR) and ambulatory glucose profile (AGP) data for possible glycemic excursions and other issues.
- Apply TIR and AGP data to modify the adjustment of a patient's diabetes management plan.
- Determine short interventions that can improve the glycemic control of patients with diabetes

Facilitated by: Dr. Michael M. Myckatyn
