

A close-up, low-angle shot of a person's hands playing a piano. The lighting is very dark, with the primary light source coming from the left, highlighting the keys and the player's fingers. The piano is a dark, possibly black, upright model. The background is mostly in shadow, showing some architectural details like a window blind or door frame.

[Documentation online](#)

# Time

# Installing

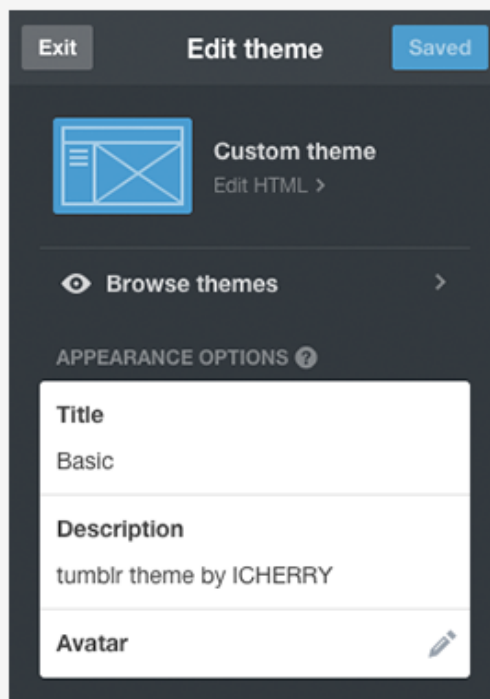

1. Unzip downloaded package and locate Time.html file.
2. Let's open it in your text editor of choice. Do not open it in a web browser as it will look like a mess.
3. Now let's select and copy all the content inside Time.html file by pressing CMD + A, CMD + C (Mac) or CTRL + A, CTRL + C (Windows PC).
4. Log in to your Tumblr Dashboard.

**On the right hand side.**

**Click here**

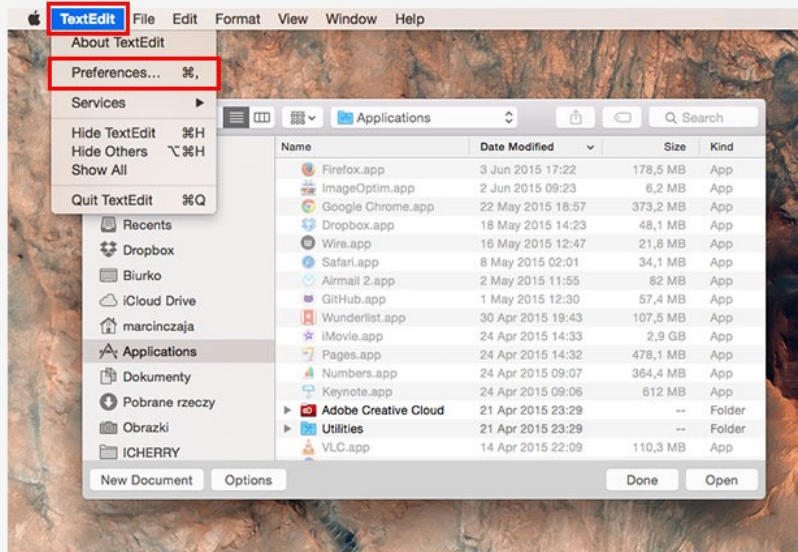

Click here  
and paste the copied code there.

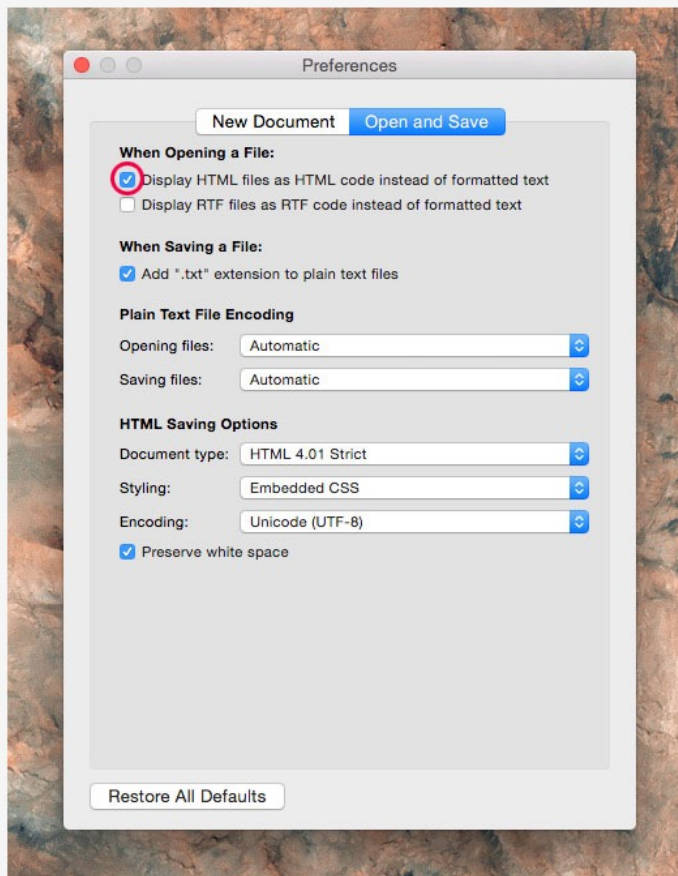

Paste your code here.

```

## IMPORTANT TextEdit (only Mac users)

Open TextEdit  
Preferences (CMD + ,)

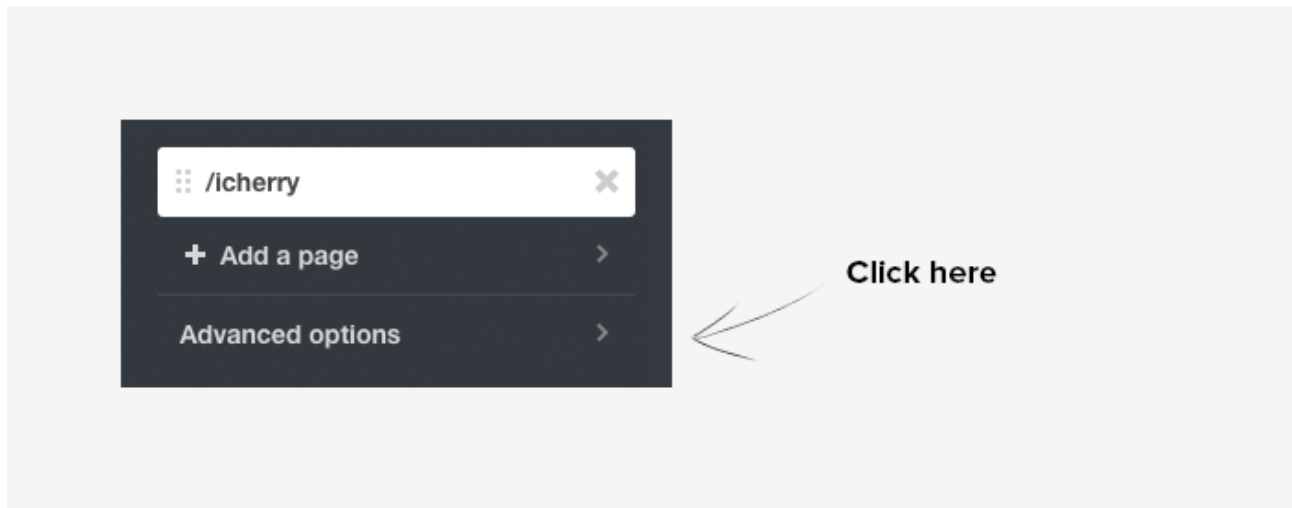

**CHECK:**

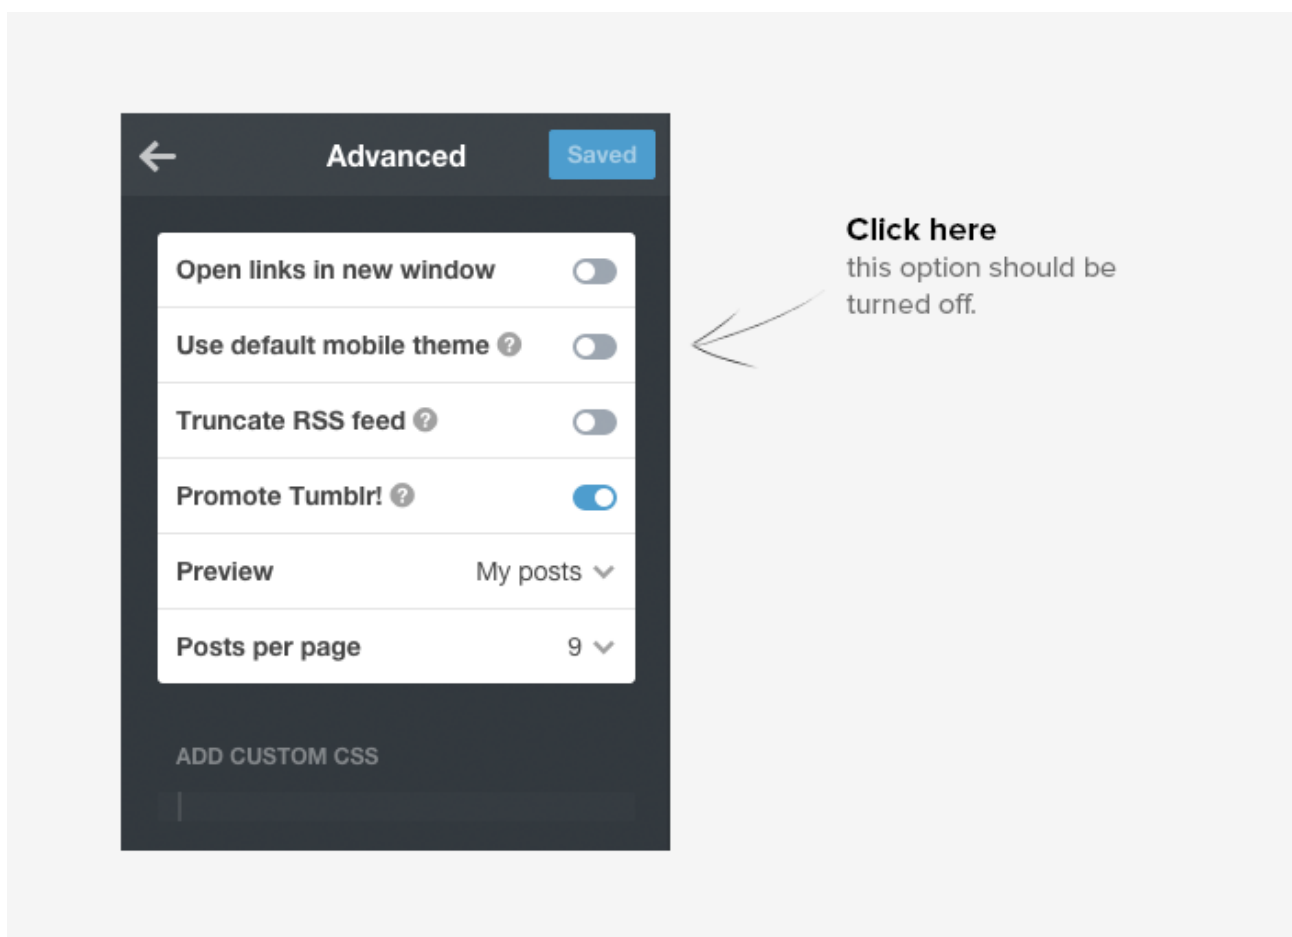

**When opening a file:**  
display HTML files as  
HTML code instead of  
formatted text

## How do I turn on the responsive theme version?

Band theme is fully responsive. We tested it on iOS, Android and Windows Phone to make sure, that your content can reach maximum audience possible.

On the new screen you need to turn off **Use default mobile theme** option. Make sure to save the changes. From the now on, your theme should be displayed perfectly on all modern devices.

## Twitter Feed

1. Go to your Settings page [here](#)
2. Select the blog with the theme installed on the right sidebar
3. Scroll down and find the twitter section
4. Connect your Twitter account with your Tumblr Account

## Instagram Feed

1. Authorize your instagram account [here](#)
2. Scroll down the page and click on the Retrieve my details bro! button.
3. Copy and paste your User ID in the “Instagram Your User ID”
4. Copy and paste your Access token in the “Instagram Your Access Token”

## Flickr Feed

1. Look up your Flickr ID [here](#) by typing in your flickr URL
2. Paste your ID in the “Flickr Username ID” section in the customize panel
3. Save
