

AI For Profitable Content Creation: The Resources

Below you will find several resources that I mentioned in ***The AI Tactics Volume 5: Using AI For Content Creation In Your Online Business Workshop***. I've put them in the order I mentioned them in to help you be able to find what you're looking for.

Keywords Everywhere – This is the tool I use for content creation.

<https://keywordseverywhere.com>

Canva – This is the tool I use to create visual content for social media, my blog, and other images that I need. <http://www.Canva.com>

Character Counter – This will count characters of text for you.

<https://wordcounter.net/character-count>

CodVerter – This is a free tool I use to break up content so I can input it into ChatGPT. For example when I have lengthy video transcripts and I need them cut up into 4000 character chunks. <https://codverter.com/src/maineditor>
