Dear Business Owner

It's a fact. In order to survive in social media you need consistent content.

But not just any content will do. You need content that is engaging but catches your audience within minutes.

Content that is too long can become boring and lose your visitors interest and they'll soon go to your competitors.

Problem #1 - Not everyone can create content.

If you don't have the artistic or creative ability to write content, then it doesn't matter anymore.

Now you can create simple images that are super engaging.

Problem #2 - But not everyone is a graphic artist either.

What if there was a way to create daily content in less than 10 minutes?

Is that even possible?

Introducing (title)

9 Part Video Course

Here's a list of this 9-part video series in more detail:

Video #1: Intro to Simple Social Content

As said earlier - There are all sorts of content marketing - but the goal here is to keep it simple but with a powerful message that will attract and engage the right audience. We'll also discuss what you need to get started on this blueprint.

Video #2: Analyze Your Audience

Before we jump in and show you how to create simple content marketing, it's crucial to understand your audience in a more granular viewpoint. In this video we are going to dive in to gaining a clear inside of your audience. Don't worry there's going to be practical information on what to do step-by-step.

Video #3: Similar Interests

Now that you have a better idea of what your audience likes and dislikes, it's time to get a list of other topics that your audience is interested in. This is very important because it gives you a more well-rounded view what attracts your audience. This will allow you to branch out in terms of creating more content, so you never get stuck.

Video #4: Where Do They Hang Out?

Know that you have a better idea of the different topics that they are interested in, it's time to figure out exactly where they hang out. We want to get a better idea of what content they engage with, what triggers them, and how they speak as well.

Video #5: Powerful Images

Finding images that are proven to work are important so that you don't start from scratch. Now this is nothing about how to find royalty-free images or anything like that, this is about finding companies that have already done the testing and to simply mimic what they are already doing.

Video #6: Powerful Words

Images themselves can be very powerful, however combined with some words can be even more powerful especially when it relates to your audience. So in this video we will be discussing how to find these powerful words that you can use in your own content.

Video #7: Creation Time

OK great! Now that you have done all the research possible to figure out what images to use and even what words to use, it's time to put it all together using some graphic editing tools. In this video we will show you tools that we use and have come to love due to their simplicity.

Video #8: Organizing Your Content

Once you start creating your content, it's important to organize them. When use this method you can easily create hundreds of contents very fast. Well this may seem simple and boring, it's actually very important.

Video #9: Auto Scheduling

Auto scheduling your content not only makes your life a lot easier, but social media sites love it when you post on a consistent basis. But how do you do it? What tool should you use?
