

Lifestyle Design

Life style design simply means:

- * Choosing a job that fits the lifestyle you want
- * Not defining yourself by your career
- * Valuing freedom and flexibility over money
- * Finding ways to do work you love

Working online is one of the simplest ways to increase your freedom and flexibility.

Common methods include:

- * Running a blog
- * Becoming a reseller
- * Selling affiliate products
- * Selling a service like writing, web design, editing, consultancy
- * Online arbitrage
- * Creating a digital product

How to work online

Lifestyle design doesn't have to mean working online. Other jobs that offer more freedom include:

- * Jobs that offer flexi time
- * Offering a service with appointments
- * Jobs that let you work from home
- * Jobs with hours that happen to suit you

Working offline

Other ways to save more time and live your life

Work isn't the only thing preventing you from having the life you want.

- * Find ways to spend less time washing, tidying and commuting
- * Find ways to multitask and get more done while enjoying your time
- * Increase your energy levels
- * Stop spending time with people you don't enjoy being around
- * Learn to say no to things you don't want to do

What does lifestyle design mean?

Becoming a digital nomad

A digital nomad is someone who:

- * Works online
- * Travels the world while working
- * Works in cafes during the evenings
- * Explores during the day

This is the ultimate expression of lifestyle design but is not for everyone!
